Specification & Notes

Deep Dry Soul Kit

Production Notes for Multi-track Users:

Channels: **13**

- Kick Inside
- Kick Outside
- Kick Sub
- Over Snare
- Under Snare
- Hats
- Rack Tom
- Floor Tom
- Overhead Left
- Overhead Right
- Room Ribbon
- Room Valve - (LDC)
- Room Stereo

- **All multi-tracks are as recorded.** IE: at unity gain with no processing. Nothing has been moved, polarity switched or phase-aligned.
- **Experiment with phase/correlation on room mics** - this can have negative or positive effects depending on many factors in your mix. Play around and experiment, just be aware that you can run into phase problems with these channels.
- **Sub kick** - Products from The Beat Shed sometimes come with a sub-bass channel - often on the kick drum. **This is heavy stuff!** You will probably want to low-pass/high-cut this channel quite aggressively, and even then, probably use it quite sparingly - it is a useful colour to add to a mix, not necessarily a main component. **But hey... no wrongs or rights, go experiment!**

Specification & Notes

Deep Dry Soul Kit

The Loops Pack - Big Round & Bouncy

There is a loop pack called “Big Round & Bouncy” related to this sample package. Recorded at the same time with the same setup, it is a pack of 47 dry funky grooves recorded in 72 loops – played at 85 & 102 BPM. Classic-sounding drums produced with a 70’s soul sound and a Shedload of CHARACTER. [Check it out here.](#)
