- Propellerhead Reason
- CamelAudio Alchemy

Specification & Notes

Heavy Rock Kit

Production Notes for Multi-track Users:

Channels: 13

- Kick Inside
- Kick Outside
- Kick Sub
- Over Snare
- Under Snare
- Hats
- Rack Tom
- Floor Tom
- Overhead Left
- Overhead Right
- Room Ribbon
- Room Valve - (LDC)
- Room Stereo

- **All multi-tracks are as recorded.** IE: at unity gain with no processing. Nothing has been moved, polarity switched or phase-aligned.
- **Experiment with phase/correlation on room mics** - this can have negative or positive effects depending on many factors in your mix. Play around and experiment, just be aware that you can run into phase problems with these channels.
- **Sub kick** - Products from The Beat Shed sometimes come with a sub-bass channel - often on the kick drum. **This is heavy stuff!** You will probably want to low-pass/high-cut this channel quite aggressively, and even then, probably use it quite sparingly - it is a useful colour to add to a mix, not necessarily a main component. **But hey... no wrongs or rights, go experiment!**

Specification & Notes

Heavy Rock Kit

and Loop pack (Heavy Rock Vol.1) related to this Beat Package. It is a pack of big, vintage-sounding Heavy Rock Drum loops. A bank of 20 grooves, 80 loops & 43 fills. [Check it out here.](#)

There is also Song Pack (The Roamer) related to this Beat Package. It contains 11 moveable heavy rock song drum sections at 100 BPM – HUGE classic-sounding grooves based on John Bonham's 70s vintage rock drum sound. [Check it out here.](#)
